

CAREER OBJECTIVE

Frontend Developer with 1 year of experience building responsive and scalable web applications using React and Tailwind CSS. Skilled in developing full-stack MERN applications with focus on performance, user experience, and clean architecture.

WORK EXPERIENCE

Frontend Developer
Neftit, Virtual

Apr 2025 - Present

- Converted UI/UX designs into responsive, production-ready web interfaces using React and Tailwind CSS.
- Collaborated with UI/UX designers and backend developers to implement scalable frontend architecture.
- Developed and optimized user-facing components for NFT collections, quests, and digital rewards features.
- Improved performance and user experience through code optimization, reusable component architecture and clean code structuring.

EDUCATION

Bachelor of Engineering (B.E), Electrical Engineering
Prof Ram Meghe College Of Engineering And Management Badnera

2018 - 2022

Senior Secondary (XII), HSC
Science

2018

Vidya Niketan Jr College Chandrapur

Secondary (X), Ssc
St Michael English School Ramnagar Chandrapur

2016

TRAININGS / CERTIFICATIONS

Git & Github
Feb 2026

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on Git & GitHub. The training consisted of Getting Started With Git, Introduction To GitHub And Basic Git Operations, Diving Into Git And GitHub, Fast Track With Basic Git Tools, Git Branching Recipes And Intermediate Git Operations, Intermediate Git Toolset, and Final Project modules. In the final assessment, I scored 59% marks.

Node JS
Dec 2025 - Jan 2026

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on Node JS. The training consisted of Introduction to Nodejs and Installation Guide, JavaScript Fundamentals, JavaScript Asynchronous programming, Node Modules, Node Web Application with Express, and Final project - Connecting a webapp to MongoDB using AJAX and node modules. In the final assessment, I scored 83% marks.

Full Stack Web Development
Jan 2026 - Feb 2026

Internshala Trainings, Virtual

Successfully completed a 8 weeks online certified training on Full Stack Web Development. The training consisted of HTML, CSS, Bootstrap, DBMS, PHP, JS, React, Final Project, and AI in Web Development modules. In the final assessment, I scored 66% marks.

React With AI
Sep 2025

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on React with AI. The training consisted of Exploring React: A Beginner's Guide, Learn and Play with States and useState in React, Fun with React: Components & Props, Make Your React Applications Shine with Styling, React Rockets: Input, Events & useRef Explorations!, Functional Programming using Hooks, Dive into Task Mate in React, Navigate Like a Pro: React Router Adventures, and Development with AI modules. In the final assessment, I scored 74% marks.

Full Stack Development Course

Jul 2024 - Feb 2025

Internshala Training, Virtual

- Full Stack Development: Let's Begin
- Designing Web Pages Using HTML And CSS
- Git And GitHub: Mastering Version Control
- Developing Interactive Websites With JavaScript
- Cracking The Code: Data Structures And Algorithms (DSA) In JavaScript - I
- Cracking The Code: Data Structures And Algorithms (DSA) In JavaScript - II
- Building Modern Web Applications Using React
- Mastering Node.js, Express.js And MongoDB
- Build Your Own Capstone Project

PORTFOLIO

[GitHub link ↗](#)

[Portfolio link ↗](#)

PROJECTS

[Spotify Clone \(React + TypeScript + Supabase\) ↗](#)

Jul 2026

- Built a full-stack Spotify Clone using React, TypeScript, Tailwind CSS, and Supabase.
- Implemented authentication using Supabase Auth with Google OAuth, Email Authentication, Session Management, and Protected Routes.
- Designed a music streaming platform with Cloudinary integration for audio and image storage.
- Developed playlist management with playlist creation, song addition/removal, liked songs, and user libraries.
- Implemented dynamic user profiles with avatar upload, profile editing, ownership-based authorization, and secure CRUD operations.
- Configured Supabase PostgreSQL, Row Level Security (RLS), relational tables, and optimized database queries for secure data access.

[Multi App Dashboard \(Full Stack MERN Application\) ↗](#)

↗

Mar 2025

- Developed a multi-feature full-stack application combining To-Do List, Weather App, and Tic-Tac-Toe in a unified dashboard.
- Implemented Firebase Authentication with Email/Password, Google OAuth, Email Verification, Password Reset, and protected routes using Firebase Admin.
- Built a task management system with full CRUD functionality, including status tracking (Pending/Completed) and secure user-specific data access.
- Integrated external Weather API to display real-time weather and 5-day forecasts based on user input.
- Designed and implemented a two-player Tic-Tac-Toe game with dynamic React state management.
- Developed user profile management with avatar upload/delete using Cloudinary, profile updates, password management, and account deletion.

SKILLS

[YouTube Clone \(Full Stack MERN Application\) ↗](#)

Feb 2025 - Mar 2025

- Built a full-stack YouTube clone using MongoDB, Express.js, React, and Node.js (MERN).
- Implemented secure authentication using JWT, Google OAuth (Passport.js), Email Verification, OTP verification, and Password Reset using Resend.
- Developed a complete video management system with video upload, playback, deletion, and Cloudinary storage.
- Built a channel-based architecture where users must create a channel before uploading videos.
- Implemented interactive features including likes/dislikes, comments (CRUD), subscriptions, and view tracking.
- Designed dynamic user profile and channel management with profile updates, channel deletion, and account deletion.

[ShoppyGlobe E-commerce Application \(Full Stack MERN Application\) ↗](#)

Jan 2025 - Feb 2025

- Developed a full-stack e-commerce application using MongoDB, Express.js, React, and Node.js
- Implemented secure user authentication and authorization for protected actions like cart access
- Designed a persistent cart system using MongoDB, allowing users to retain items across sessions
- Integrated external REST API (DummyJSON) to dynamically fetch and display product data
- Built responsive UI with reusable components and external CSS for cross-device compatibility
- Implemented product detail pages, quantity management, and order confirmation workflow

- HTML
- React
- MongoDB
- Teamwork

- JavaScript
- Node.js
- Tailwind CSS
- Problem Solving

- CSS
- Express.js
- Effective Communication
- Creativity
