

CAREER OBJECTIVE

Frontend Developer with 1 year of experience building responsive and scalable web applications using React and Tailwind CSS. Skilled in developing full-stack MERN applications with focus on performance, user experience, and clean architecture.

WORK EXPERIENCE

Frontend Developer
Neftit, Virtual

Apr 2025 - Present

- Converted UI/UX designs into responsive, production-ready web interfaces using React and Tailwind CSS.
- Collaborated with UI/UX designers and backend developers to implement scalable frontend architecture.
- Developed and optimized user-facing components for NFT collections, quests, and digital rewards features.
- Improved performance and user experience through code optimization, reusable component architecture and clean code structuring.

EDUCATION

Bachelor of Engineering (B.E), Electrical Engineering
Prof Ram Meghe College Of Engineering And Management Badnera

2018 - 2022

Senior Secondary (XII), HSC
Science

2018

Vidya Niketan Jr College Chandrapur

Secondary (X), Ssc
St Michael English School Ramnagar Chandrapur

2016

TRAININGS / CERTIFICATIONS

Git & Github
Feb 2026

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on Git & GitHub. The training consisted of Getting Started With Git, Introduction To GitHub And Basic Git Operations, Diving Into Git And GitHub, Fast Track With Basic Git Tools, Git Branching Recipes And Intermediate Git Operations, Intermediate Git Toolset, and Final Project modules. In the final assessment, I scored 59% marks.

Node JS
Dec 2025 - Jan 2026

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on Node JS. The training consisted of Introduction to Nodejs and Installation Guide, JavaScript Fundamentals, JavaScript Asynchronous programming, Node Modules, Node Web Application with Express, and Final project - Connecting a webapp to MongoDB using AJAX and node modules. In the final assessment, I scored 83% marks.

Full Stack Web Development
Jan 2026 - Feb 2026

Internshala Trainings, Virtual

Successfully completed a 8 weeks online certified training on Full Stack Web Development. The training consisted of HTML, CSS, Bootstrap, DBMS, PHP, JS, React, Final Project, and AI in Web Development modules. In the final assessment, I scored 66% marks.

React With AI
Sep 2025

Internshala Trainings, Virtual

Successfully completed a 6 weeks online certified training on React with AI. The training consisted of Exploring React: A Beginner's Guide, Learn and Play with States and useState in React, Fun with React: Components & Props, Make Your React Applications Shine with Styling, React Rockets: Input, Events & useRef Explorations!, Functional Programming using Hooks, Dive into Task Mate in React, Navigate Like a Pro: React Router Adventures, and Development with AI modules. In the final assessment, I scored 74% marks.

Full Stack Development Course

Jul 2024 - Feb 2025

Internshala Training, Virtual

- Full Stack Development: Let's Begin
- Designing Web Pages Using HTML And CSS
- Git And GitHub: Mastering Version Control
- Developing Interactive Websites With JavaScript
- Cracking The Code: Data Structures And Algorithms (DSA) In JavaScript - I
- Cracking The Code: Data Structures And Algorithms (DSA) In JavaScript - II
- Building Modern Web Applications Using React
- Mastering Node.js, Express.js And MongoDB
- Build Your Own Capstone Project

PORTFOLIO

[Portfolio link ↗](#)

PROJECTS

[YouTube Clone \(Full Stack MERN Application\) ↗](#)

Feb 2025 - Mar 2025

- Built a full-stack YouTube clone using the MERN stack with user authentication and protected routes.
- Implemented user signup/login system with secure authentication and session management.
- Designed a complete video management system including upload, playback, deletion, and metadata handling.
- Developed channel-based architecture where users must create a channel before uploading videos.
- Integrated interactive features such as likes/dislikes, comments (CRUD operations), subscriptions, and view tracking.
- Created dynamic user profiles with channel details, uploaded videos, and account/channel deletion functionality.

[ShoppYGlobe E-commerce Application \(Full Stack MERN Application\) ↗](#)

Jan 2025 - Feb 2025

- Developed a full-stack e-commerce application using MongoDB, Express.js, React, and Node.js
- Implemented secure user authentication and authorization for protected actions like cart access
- Designed a persistent cart system using MongoDB, allowing users to retain items across sessions
- Integrated external REST API (DummyJSON) to dynamically fetch and display product data
- Built responsive UI with reusable components and external CSS for cross-device compatibility
- Implemented product detail pages, quantity management, and order confirmation workflow

SKILLS

- | | | |
|------------|-------------------|---------------------------|
| • HTML | • JavaScript | • CSS |
| • React | • Node.js | • Express.js |
| • MongoDB | • Tailwind CSS | • Effective Communication |
| • Teamwork | • Problem Solving | • Creativity |

[Multi App Dashboard \(Full Stack MERN Application\) ↗](#)

Mar 2025

- Developed a multi-feature full-stack application combining To-Do List, Weather App, and Tic-Tac-Toe in a unified dashboard.
- Implemented secure user authentication with signup/login and protected routes for task management.
- Built a task management system with full CRUD functionality, including status tracking (pending/completed).
- Integrated external weather API to display real-time data and 5-day forecasts based on user input.
- Designed and implemented a two-player Tic-Tac-Toe game with dynamic state management.
- Created user profile management system with avatar upload, profile updates, and account deletion.
